

accutest® TSH

A new test for Hypothyroidism that can be done in your office...

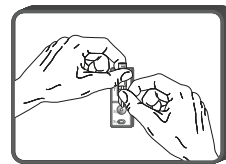

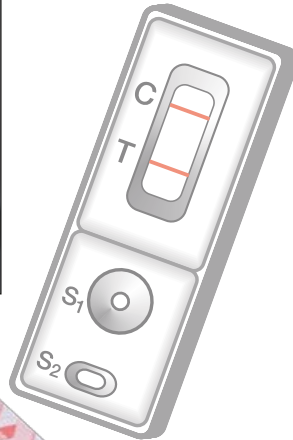

Almost 27 million Americans are hypothyroid... less than 50% have been diagnosed! Symptoms of Hypothyroidism are common to many clinical conditions and include:

- Weight gain, constipation
- Depression, lethargy, fatigue
- Sluggishness, sleepiness
- Menstrual irregularities
- Muscle cramps and aches
- Cold intolerance

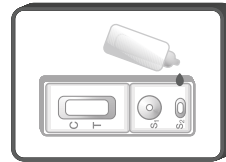

If you suspect hypothyroidism, test with CLIA-waived Accutest TSH.

Place one drop of blood from a finger-stick or venous draw in S1

Wait 90 seconds

Place 4 drops of buffer in S2

Read results in 10 minutes

American Thyroid Association recommends TSH as initial screen for hypothyroidism!
